Devices give students Push to education students

Gateway M275 tablet PC, Winona State University, Nevada State University.
The schools will provide the tablet computers to full-time students who do not have laptops from previous programs.

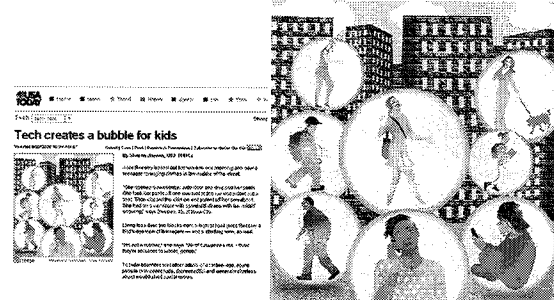

BlackBerry 7710 PDA, University of Maryland.
The school has begun training and the wireless personal digital assistants to faculty and more than 500 additional graduate students in the School of Education.

Effects of interactive multimedia in distance learning

Giti Javidi and Ehsan Sheybani, 2004, In Proceedings of the IASTED International Conference WEB-BASED EDUCATION

"The advancement in technology is shaping every aspect of our life, including education. One decade ago, the Internet was not critical to education. However, now, it has become an integral part of learning process. Internet technology is having a dramatic effect on colleges and universities, producing what may be the most challenging period in the history of higher education."

Next Generation of Students

Tech Creates Bubble for Kids
